WHEAT EXPORTS INCREASED AT ENORMOUS RATE

Burleson Rules Foodstuffs Sent
By Parcel Post Go at
Shippers' Risk

[Associated Press by Federal Wireless]
WASHINGTON, D. C., March 25.—Statistics compiled from shipping records, and given out by the Department of Commerce, show that the export value of American breadstuffs sent to Europe for the eight months ending February 28, was \$357,091,823, as compared with \$115,215,891 for the corresponding period of the year previous. The greatest increase was in wheat, exports of which leaped from \$67,654,608 to \$229,205,142.

Postmaster-General Burleson ruled yesterday that foodstuffs and merchandise may be shipped by parcels post to the belligerent nations of Europe at the sender's risk, and subject to the same rules of international procedure which the warring powers have announced with regard to freight and shipments by express.

PRESIDENTIAL PRIMARIES
ILLEGAL, SAYS POMERENE

[Associated Press by Federal Wireless]
WASHINGTON, D. C., March 25.—After a careful consideration of the legal aspects of the case, Senator Pomerene of Ohio announced today that Congress has no power to enact a statute providing for presidential primaries, for which the Democratic platform declared. Only a constitutional amendment ratified by the states, said the senator, can change the present manner of nominating candidates for the presidency.

JAPAN ELECTORS ARE DECIDING OKUMA'S FATE

[Associated Press by Federal Wireless]
TOKIO, Japan, March 25.—With forecasts favoring the retention of power by Count Okuma and his cabinet, but only through the favor of the independents, who will hold the balance of power, the Japanese voters went to the polls yesterday to bring to an end the most exciting and the most expensive political campaign ever waged in the history of constitutional government in Japan. The results will not be known for some days.

WAIHOLE TRIP SUNDAY PROVES DRAWING CARD

The trip to Waihole on windward Oahu planned by the Outdoor Promotion Committee for next Sunday, promises to be one of the most interesting of the outdoor series. The bus will leave the Promotion Committee rooms at 8 o'clock and will reach the Waihole district before ten. This will give ample time for those of the party who wish to go up and inspect the great engineering work at the head of the Waihole canyon, where a bore is being tunneled through the mountain to convey water to the Oahu plantation. This alone will be worth the trip but in addition there will be an opportunity to spend part of the day at the beach for swimming. Maps for the auto-bus trip are now being received at the Promotion rooms.

THIN FOLKS WHO
WOULD BE FAT

Increase in Weight Ten Pounds or More.
A Physician's Advice.
"I'd certainly give most anything to be able to fat up a few pounds and stay that way," declares every excessively thin man or woman. Such a result is not impossible, despite past failures. Thin people are victims of malnutrition, a condition which prevents the fatty elements of food from being taken up by the blood as they are when the powers of nutrition are normal. Instead of getting into the blood, all the fat and flesh producing elements stay in the intestines until they pass from the body as waste. To correct this condition and to produce a healthy normal amount of fat the nutritive processes must be artificially supplied with the power which nature has denied them. This can best be accomplished by eating a Sargol tablet with every meal. Sargol is a scientific combination of six of the best strength-giving, fat-producing elements known to the medical profession. Taken with meals, it mixes with the food and turns the sugars and starches into rich, ripe nourishment for the tissues and blood and its rapid effect is remarkable. Reported gains of from ten to twenty-five pounds in a single month are by no means infrequent. Yet its action is perfectly natural and absolutely harmless.

Caution:—While Sargol has produced remarkable results in the treatment of nervous indigestion and general stomach disorders, it should not, owing to its remarkable flesh producing effect, be used by those who are not willing to increase their weight ten pounds or more.

BLAME CHINESE STUDENTS FOR SHANGHAI RIOT

[Associated Press by Federal Wireless]
TOKIO, Japan, March 25.—Chinese students recently returned from the Japanese universities of Tokyo, which they left full of anger over the Chinese policy of Japan, instigated the anti-Japanese riot yesterday in Shanghai, according to the latest advices received here from that city.

An inflammatory manifesto, exhorting every patriotic Chinese to stand up for his country against Japan, was carried through the streets of the city. The response was almost immediate and a great mob of excited patriots formed in the Chinese city proper. Thence the mob marched on the Japanese settlement, shouting "Down with Japan and the Japanese." From shouting to action was but a step, and before the Japanese merchants had time to put up their shutters, their shops were stormed and looted. It was some time before the police guards could get the mob under control and drive it out of the settlement.

THICK, GLOSSY HAIR
FREE FROM DANDRUFF

Girls! Try It! Hair gets soft, fluffy and luxuriant at once—No more falling hair

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.
Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, healthy hair if you have dandruff. This destructive scrub ruins the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots fall out, loosen and die; then the hair falls out fast. If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff, no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?—advertisement.

Fort Shafter Notes

[Special Star-Bulletin Correspondence]
FORT SHAFTER, March 24.—Lieut. John R. D. Matheson, Corps of Engineers, received orders from Washington by the last mail to proceed to San Francisco for examination for promotion to the grade of captain. The order will, however, not be effective until notification from the President of the examining board is received that Lieut. Matheson's services are required. When that notification is at hand the officer will first be examined as to his proficiency in horsemanship by the commanding officer at Fort Shafter and then will leave for San Francisco. Col. Thomas H. Rees of the Engineer Corps is the senior officer of the examining board. With the promotions in the engineers due to the annual increase and the additional places caused by the retirement of Col. Roessler and the promotions of Col. Goethals and Harry F. Hodges and Lieut. Col. William L. Sibert by the special Act of Congress, Lieut. Matheson is in the fortunate position of being able to "see his file" in the very near future.

A number of the officers and enlisted men of the 2d have received remittances on account of pay due them under the Vulte decision of the court of claims, whereby the per centum increase for foreign service at regards duty in Hawaii from 1908 until August 1912 was declared legal. There are still a large number of claims remaining unpaid on account of Congress having failed to make the necessary appropriation from funds in the treasury and the claimants will have to wait payment until next Congress acts in the case. The decision was made in May of last year, and the auditor's office has been engaged since then in examining claims and issuing the necessary warrants.

From the latest service papers it is learned that Maj. Peter E. Marquart, late captain in the 2d Infantry, is by reason of the detachment of his seniors in the 12th Infantry, now in command of that regiment at its station at Nogales, New Mexico. Maj. Marquart is the junior major of the 12th and the good fortune of command that has fallen to his lot is somewhat unusual in these piping times. Mrs. Marquart is now with Maj. Marquart at the latter's field station, although they still retain their quarters at the Presidio as a permanent assignment and are expectant of a turn of the wheel that will take the regiment away from border duty and back to the home station.

Under the superintendence of Lieut. L. McD. Silvester the Fort Shafter target range has been made completely ready for the ensuing season. The range is now in the best condition for service and equipment that has yet been seen at this post. The Shafter range will now compare favorably with any in the states as regards location and general equipment, although the "buzzer" system of communication is an improvement that is much to be desired. It is hoped that additional allotment will be made whereby that system can be installed.

The class in international law in the garrison school course will complete recitations on the 26th, and the examinations for the officers in that subject will take place on March 30. The course of recitations has been of unusual interest on account of the prominence of the subjects of neutrality and contraband particularly appealing to the class.

Capt. Carl A. Martin, recently transferred to the 2d Infantry from the 1st, is preparing to take the course at the School of the Line at Fort Leavenworth and now expects that orders in his case for the duty will be received at an early date. The course at that school, begins September 1 of each year and is of one year's duration.

The general court martial, of which Maj. Lenihan is president and Lieut. H. N. Preston is judge-advocate, held a session yesterday for organization and the trial of the first case referred to it.

A. J. Loguin, managing director of the Petrograd Metal Works Co., one of Russia's largest corporations, is at Pittsburgh to close contracts for materials.
